The STIG Management and Compliance Challenge(s)

The friction points that leadership, ISSMs, ISSOs, and security engineers wrestle with related to STIG compliance

© Kinney Group, Inc.

The Compliance Challenge at Scale (Example)

Manually completing the RHEL 8 STIG on one system can take….

2 hours of investigating + **12 hours** of resolving vulnerabilities + **2 hours** of updating and reporting = **16 hours** (estimated)

Completing multiple STIGs on multiple servers can take **a lot of time and effort**
