Our Mission

"Al has the power to transform the way we work—but only if it's seamlessly integrated into the tools we already use.

Our mission is to bridge the gap between cuttingedge Al and real-world impact, ensuring that organizations don't just adopt Al, but thrive with it." Darren Kimura, CEO of Al Squared

https://squared.ai

Problem - Al Adoption Initiatives are Failing

Al Deployment is Broken

Organizations are **failing** in deploying AI because:

No Operational Path Forward – Data science teams and business decision makers are disconnected

Data Lock In – Governance and privacy teams kill projects based on data ownership

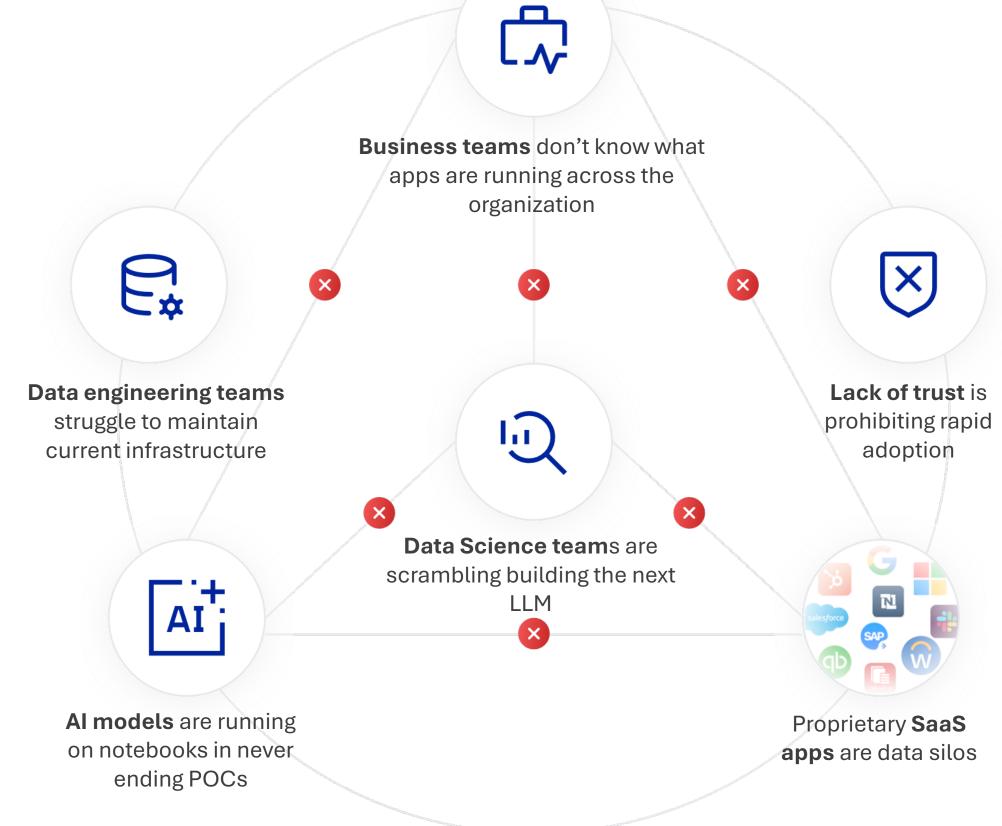

Unreliable Uptimes – Data pipelines have an average of 6 hours to troubleshoot and multiple outages per year

Tool Sprawl – Large enterprises have over 300 SaaS tools usually with little exposure across the organization

Lack of Trust - No transparency, unclear ethics policies, governance gaps and no feedback

The Last Mile Problem of Al

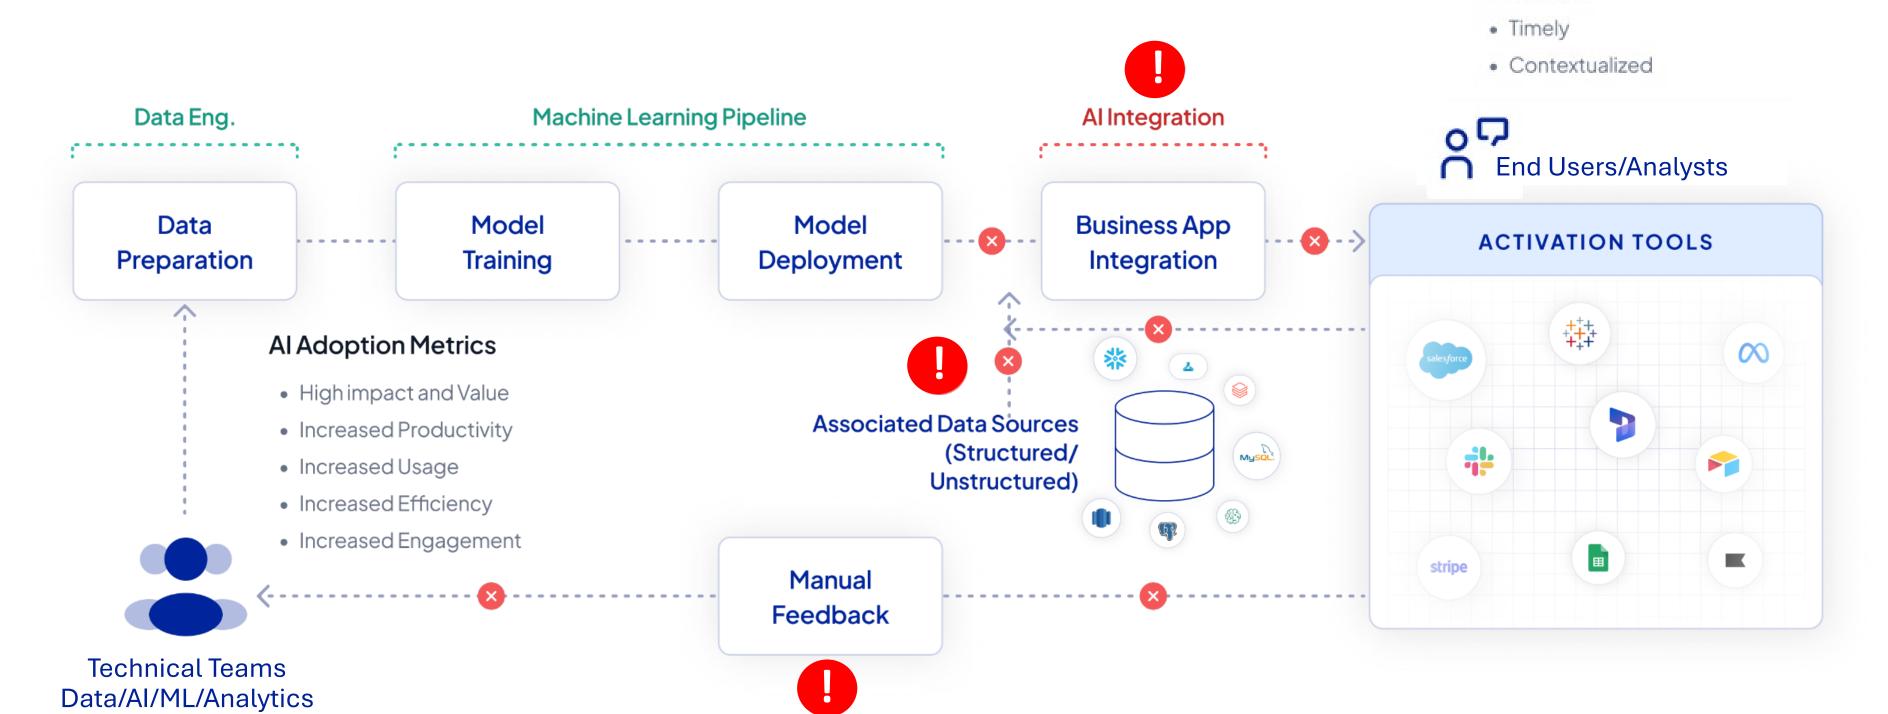

Al Adoption Criteria

· Accurate and Performant

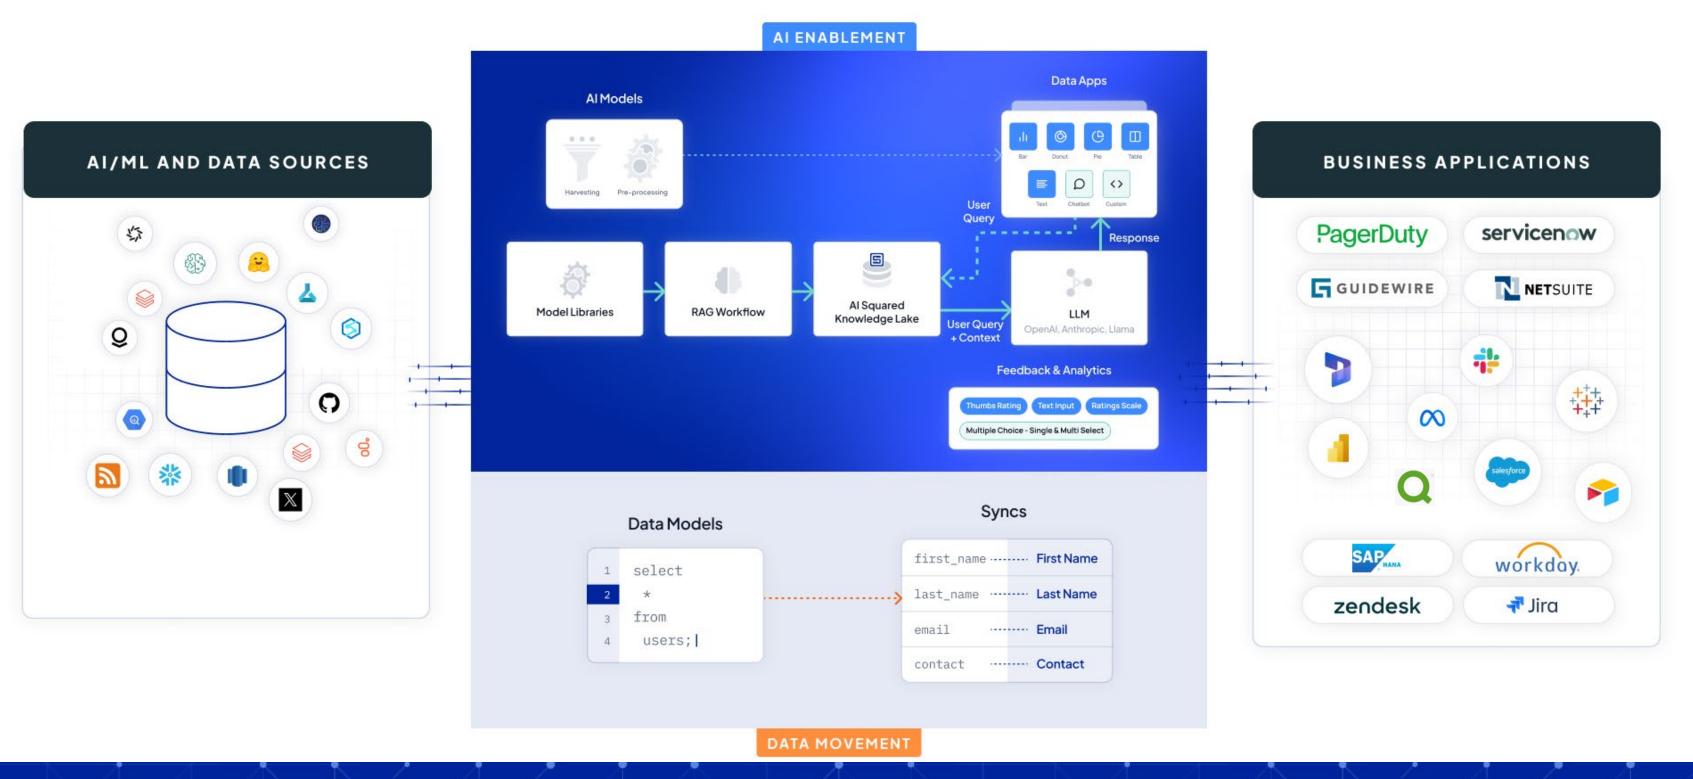

Actionable

Relevant

Time-to-Evaluate: 6 to 9+ months
Time-to-Build: 100s of hours

Al Squared UNIFI Platform integrates Data, Al, & Advanced Analytics within workflows in less than a day

Features... Advantage... Customer Benefit!

On-Prem & VPC Deployment

- Al Squared houses different Al models across your organization
- On-premise deployment for highly regulated environments
- Advantage: Agile Deployment
- Benefit: Integrates with Existing Infrastructure

End User A-B Model Testing

- Test various AI models in secure sandbox
- Confidently release AI insights to production environments
- Advantage: No Learning Curve for Non-Technical Users
- Benefit: Rapidly Deliver Al Products

Data / Al Model
Agnostic Integration

- Put AI insights directly into existing applications
- No Code/Low Code integrations
- Advantage: Break Down Data / Al Siloes
- Benefit: Unlock Value of Data and AI and Optimize Legacy Applications

Feedback Loop

- End users provide input on Al generated insights
- Tuned existing models for more accurate results
- Advantage: Provides Insight to Data Scientists & ROI Metrics to Leadership
- Benefit: Trust & Al Adoption

5 aisquared UNIFI Demo

Al Squared helps large organizations integrate Data & Al within the workflow enabling faster and more accurate data driven decisions

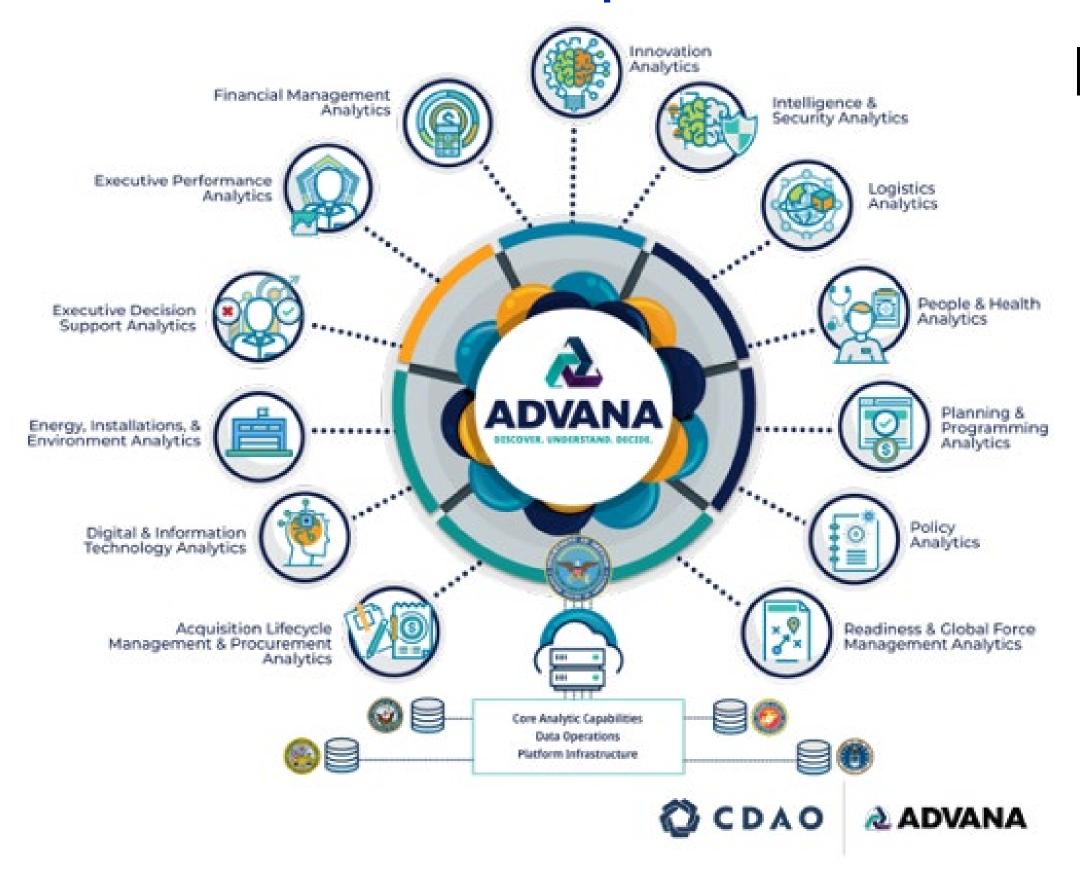

"We were stuck after the pilot and AI Squared helped us get AI insights to everyone across the company."

-Fortune 1000 customer

"Al Squared enables us to bring critical insights to our sales team directly. The solution has given us the speed and credibility we need to drive data & Al transformation across our organization" - Top 5 CPG Manufacturer

AI Squared UNIFI Platform is on ADVANA

Current Departments Using The ADVANA Platform

- Assistant Secretary of the Army
- US Space Command
- Under Secretary of Defense for Personnel and Readiness
- Defense Human Resources Activity
- Department of the Air Force
- Assistant Secretary of the Air Force
- Department of the Navy
- Office of the Chief Data Officer
- Defense Logistics Agency
- Office of the Chef Data and Analytics Officer
- National Guard Bureau
- US Transportation Command
- US Special Operations Command
- Office of the Chief Digital and Artificial Intelligence Officer

How Al Squared Can Support DISA

DISA Next Strategy

Strategic Imperative #1
Operate and Secure the DISA Portion of the DoD Information Network

Provide Relevant, Modern Enterprise and Business Tools **DISA supports 200+ enterprise** tools to CCMDs, MILDEPs, and DAFAs.

DISA must provide state of the art capabilities that will **not only meet current requirements but** will **posture** their customers to take advantage of **emerging capabilities that provide competitive advantages** in a contested environment.

LOE 1 - Strengthen Data Architecture and Governance

LOE 2 - Integrate Advanced Analytics

LOE 3 - Cultivate a Data-Centric Culture

How Al Squared Can Support DISA

SETI Performance Task Areas

Task Area 4: Software Systems Design and Development Design, Develop, Integrate, and Modernize systems to enhance the mission

Task Area 5: Systems Integration
Integrate Component Subsystems to Produce an Interoperable Final System

Task Area 1: Systems Engineering
Establish the Framework for delivering Material Capabilities

How Al Squared Can Support DISA

DISA Emerging Technology Directorate Watchlist

Research - Supply Chain Validation and Scanning

Prototype - Artificial Intelligence Operations (AI Ops)

Pilot - Big Data Analytics & Visualization

Contact Us

Al Squared is on ADVANA

DoD agencies on ADVANA have free access to our platform through the end of the year.
